Admin Guide for WordPress

Codex

As quoted at <http://codex.wordpress.org/>, Codex is “the online manual for WordPress and a living repository for WordPress information and documentation.” I would not get bogged down with all the information at Codex except that it exists and it is the starting point if you have a WordPress question or issue.

Administration Screens

The Administration Screens is a subsection of the Codex. As quoted at [http://codex.wordpress.org/Administration Screens](http://codex.wordpress.org/Administration_Screens), “The Administration Screen provides access to the control features of your WordPress installation. Each Administration Screen is presented in sections, the toolbar (and header), the main navigation, the work area, and the footer.” In other words, WordPress provides you with an admin tool that will assist customizing your site and maintain the content.

Below is a list of WordPress Administration Screens. The areas circled in yellow are the screens one would frequent to update the SFNCT content.

Toolbar <ul style="list-style-type: none">▪ About WordPress (under logo)▪ What's New▪ Credits▪ Freedoms▪ View Site (under site name)▪ Howdy, User▪ Screen Options▪ Help	Dashboard <ul style="list-style-type: none">▪ Home▪ Updates	Posts <ul style="list-style-type: none">▪ All Posts▪ Add New▪ Categories▪ Tags	Media <ul style="list-style-type: none">▪ Library▪ Add New▪ Edit Media	Links <ul style="list-style-type: none">▪ All Links▪ Add New▪ Link Categories	Pages <ul style="list-style-type: none">▪ All Pages▪ Add New
Comments	Appearance <ul style="list-style-type: none">▪ Themes▪ Widgets▪ Menus▪ Customize<ul style="list-style-type: none">▪ Background▪ Header▪ Editor	Plugins <ul style="list-style-type: none">▪ Installed Plugins▪ Add New▪ Editor	Users <ul style="list-style-type: none">▪ All Users▪ Add New▪ Your Profile	Tools <ul style="list-style-type: none">▪ Available Tools▪ Import▪ Export	Settings <ul style="list-style-type: none">▪ General▪ Writing▪ Reading▪ Discussion▪ Media▪ Permalinks

WordPress Admin Guide Site

The Codex is the official documentation for WordPress.

The WordPress Admin Guide Site provides another resource on the WordPress Administration Screens. <http://wp-admin-guide.com/>

As quoted from the home page of their site, “The *WordPress Admin Guide* is intended for ordinary folks who got a WordPress site and are now pouring contents into it. Normally, a professional web developer would setup the site for you. Your job now is to manage the site’s contents. This site will guide you through it.”

I would highly recommended giving this site a once over read.

Admin Guide for San Francisco Neighborhood Centers Together (SFNCT) Website

Administration Screen Login Page

<http://wp-admin-guide.com/how-to-admin-wordpress/logging-in/>

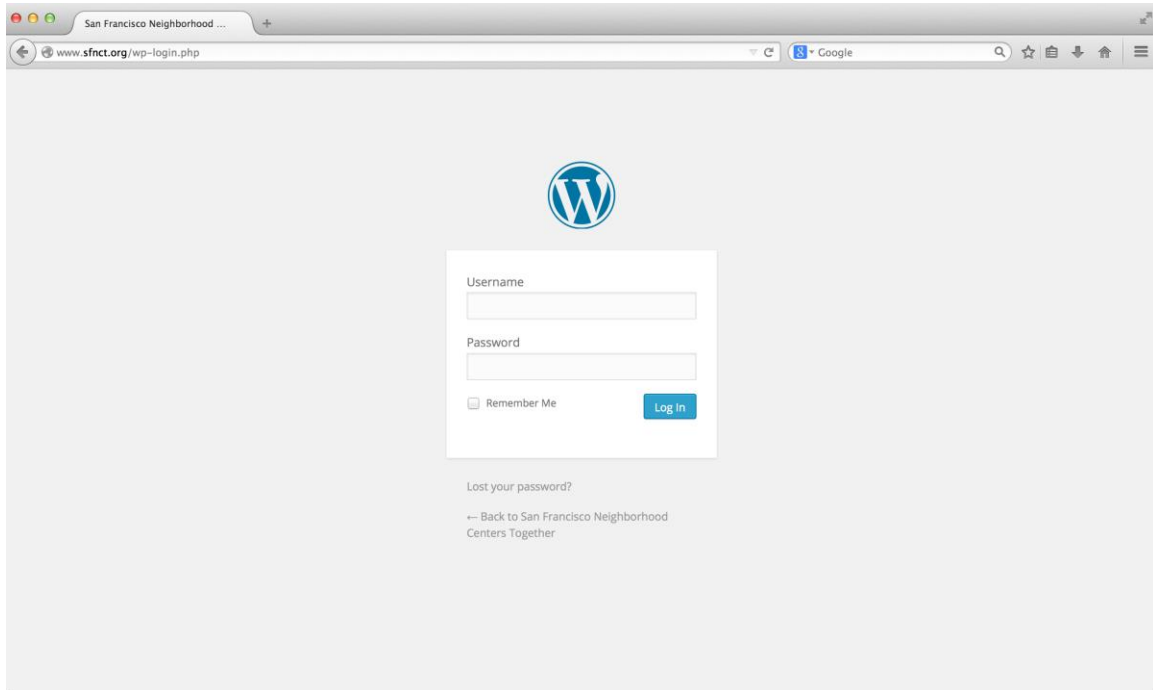

Figure 2: Administration Screen - Login Page

1. Go to the WordPress Administration Login page for SFNCT.
<http://www.sfnct.org/wp-admin/index.php>
2. Enter Username and Password and select the Log In button.
User Name: admin
Password: wordpress
3. After you log in, the default page of the WordPress Administration is the Dashboard Screen.
<http://wp-admin-guide.com/how-to-admin-wordpress/the-dashboard/>

How Do I Update the Site Title

<http://wp-admin-guide.com/how-to-admin-wordpress/the-settings-menu/>

www.sfnct.org/about_us/

Figure 3: SFNCT - Site Title

1. [Log on the WordPress Administration for SFNCT.](#)
2. From the left side panel, select “Settings → General” or go to <http://www.sfnct.org/wp-admin/options-general.php>
3. Update Site Title text box and select the Save Changes button.

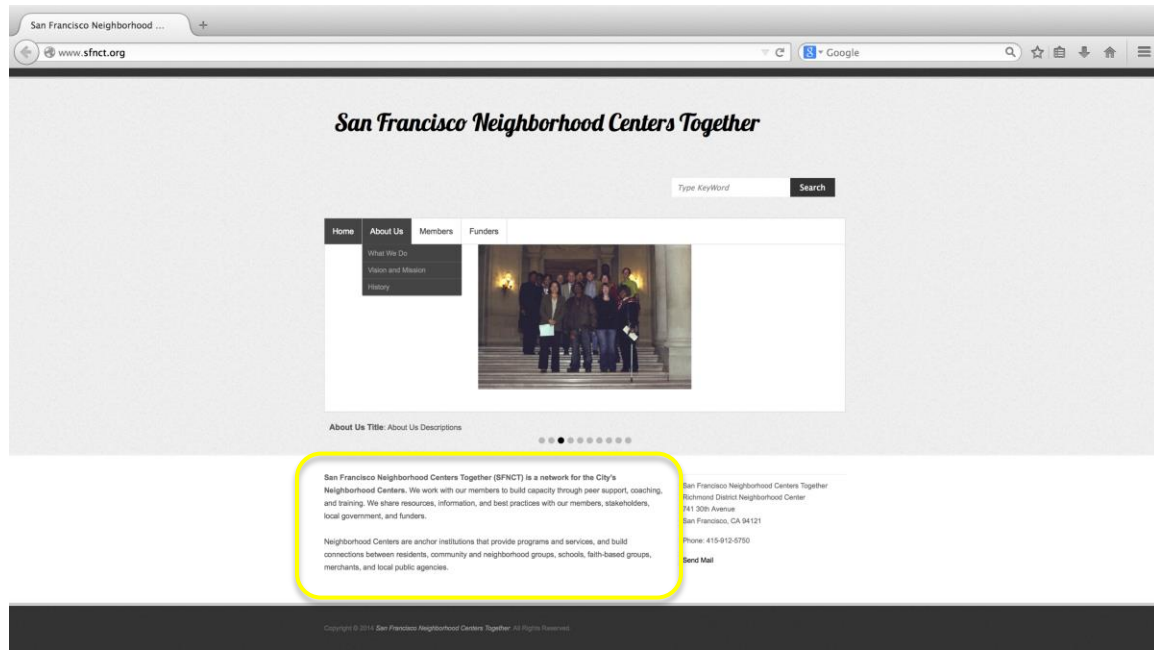

Figure 4: Administration Screen - General Settings

How Do I Update the Pages

<http://wp-admin-guide.com/how-to-admin-wordpress/writing-posts-and-pages/>

<http://wp-admin-guide.com/how-to-admin-wordpress/working-with-pages/>

www.sfncf.org/about_us/

Figure 5: SFNCT - Pages

1. [Log on the WordPress Administration for SFNCT.](#)
2. From the left side panel, select "Pages" or go to http://www.sfncf.org/wp-admin/edit.php?post_type=page
3. Select the Page name hyperlink or right-click the Page name and select Edit, and the Edit Page will be launched.
4. On the Edit Page, update the page content and select the Update button.

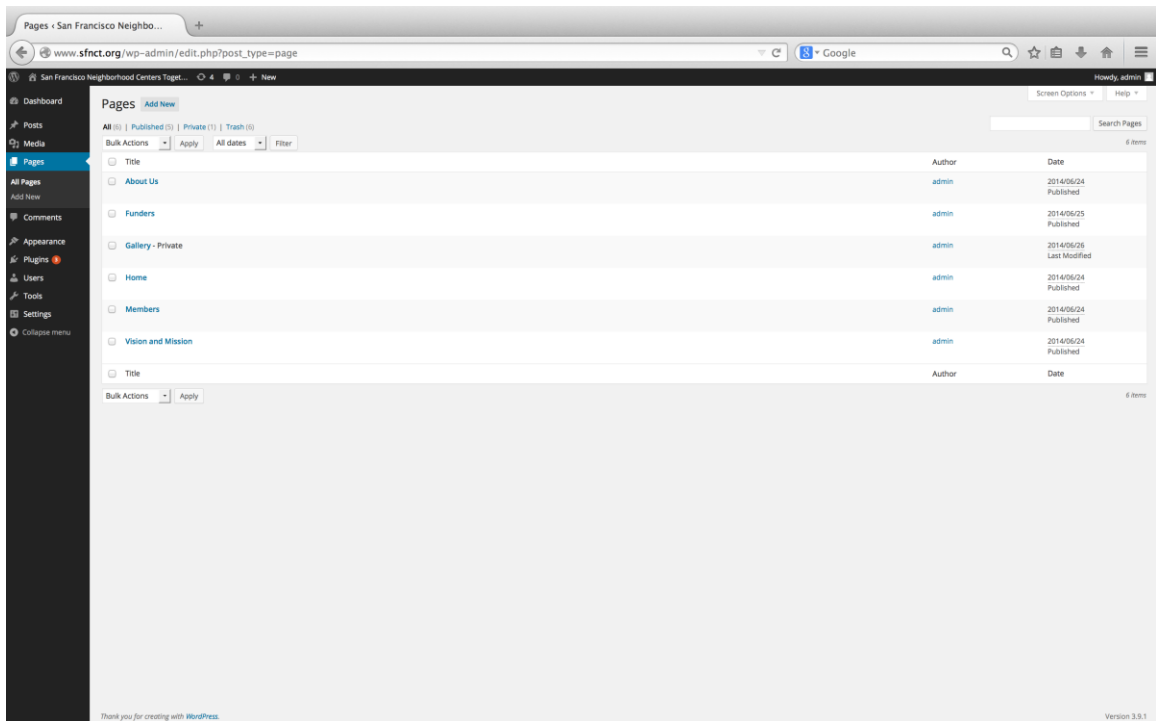

Figure 6: Administration Screen - Pages

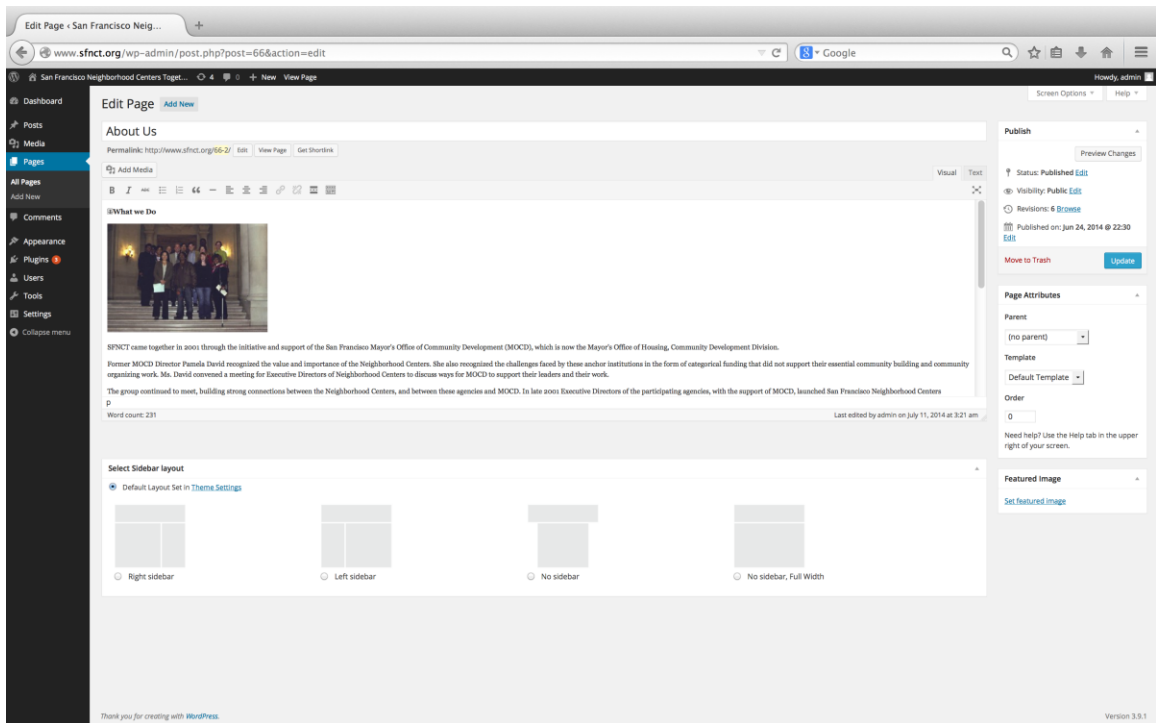

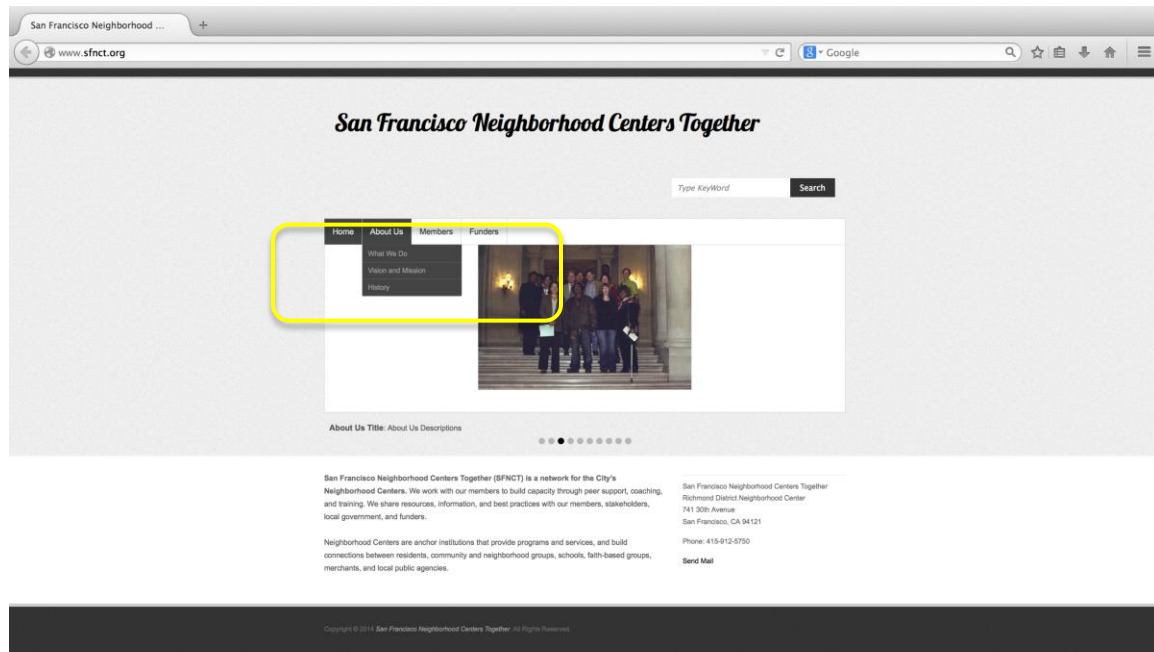

Figure 7: Administration Screen - Edit Page

How Do I Update the Menus

<http://wp-admin-guide.com/how-to-admin-wordpress/working-with-menus/>

www.sfnct.org/about_us/

Figure 8: SFNCT - Menus

1. [Log on the WordPress Administration for SFNCT.](#)
2. From the Dashboard Screen, select “Appearance → Menus” or go to <http://www.sfnct.org/wp-admin/nav-menus.php>
3. The right panel, Menu Structure, displays the current menu. A menu item displays either it references a Page or Custom hyperlink. The referenced page is one of the available pages from the [Administration Screen Pages](#) and is listed on the left panel. By default, a new page will automatically be added to the current menu. If you remove a Page from the Menu, you can always re-add it by dragging the page from the left Page panel to the right Menu Structure panel. A Custom hyperlink references a hyperlink that is not specifically a page. For example, a custom hyperlink was created for the What We Do and History menu items so a user would be forwarded to a particular section within the About Us page. The Navigation Label displays the Menu title. The menu items that are right indented are submenus. For instance, What We Do, Vision and Mission, and History menu items are submenus to the About Us menu item.

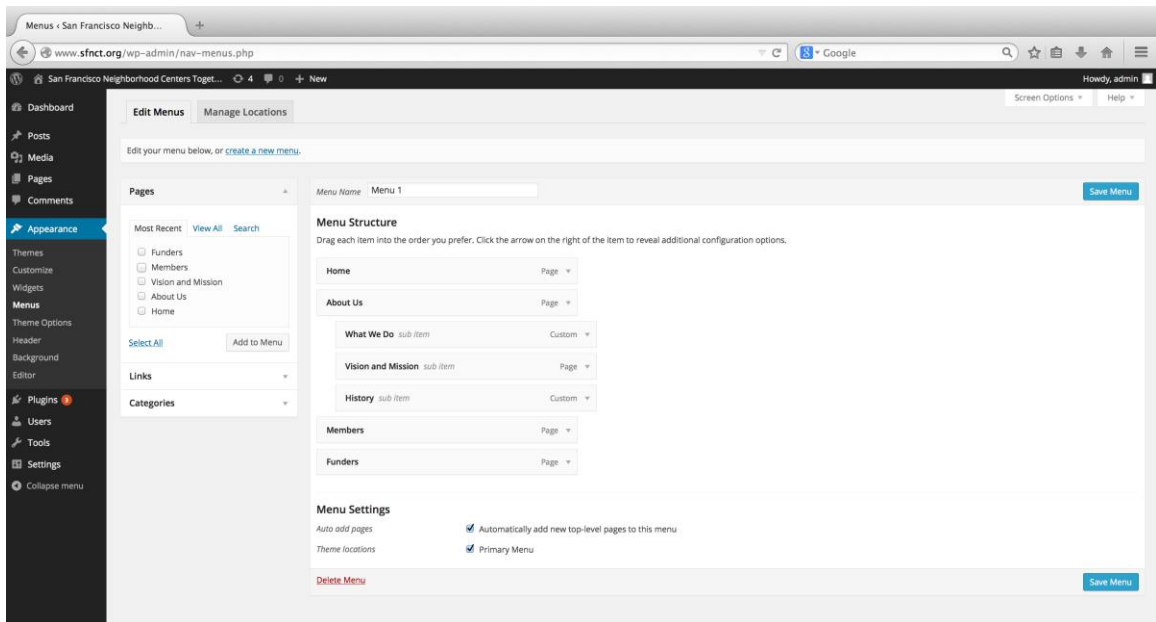

Figure 9: Administration Screen - Menus

The Media Library and Your Upload Images

<http://wp-admin-guide.com/how-to-admin-wordpress/uploading-media-files/>

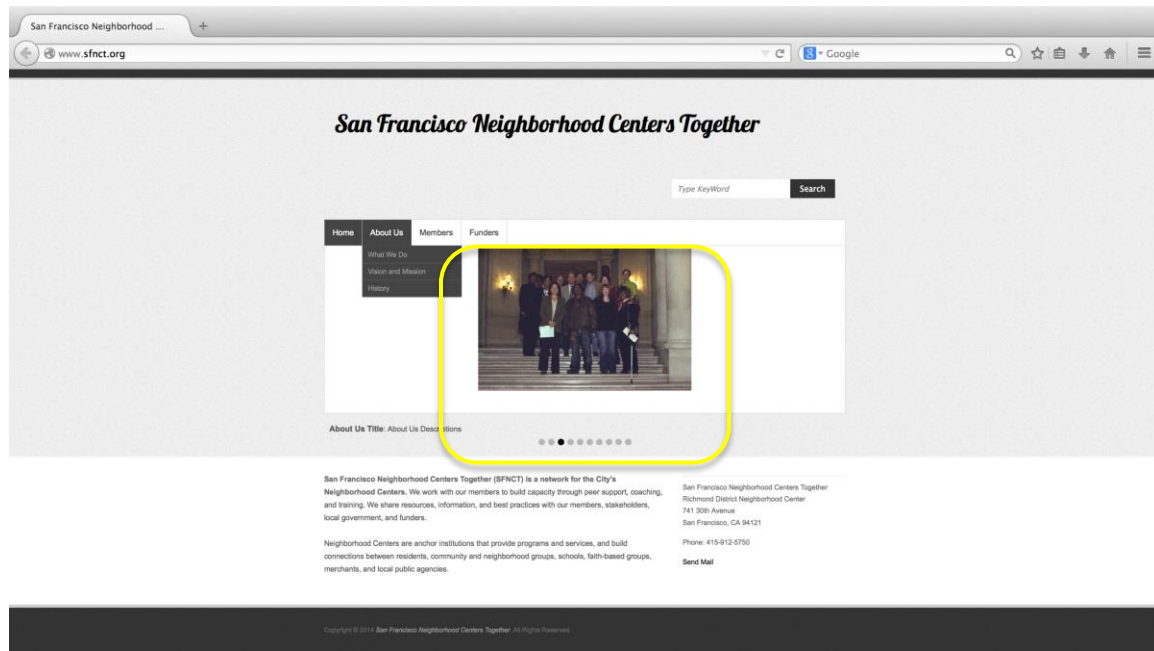

Figure 10: Administration Screen - Media Library

1. [Log on the WordPress Administration for SFNCT.](#)
2. To view all uploaded images, from the Dashboard Screen, select “Appearance → Media” or go to <http://www.sfnct.org/wp-admin/upload.php>. To remove an image(s) select the checkbox(s) and select Delete Permanently and then Apply button or the Delete Permanently hyperlink to delete one image.
3. To add a new image, from the Dashboard Screen, select “Appearance → Media → Add New” or go to <http://www.sfnct.org/wp-admin/media-new.php>. On the Upload New Media page, drag and drop the image in the box or select the Select Files button.
4. The new images will be added to the wp-content/uploads/ folder.

How Do I Add Images to the Slider on the Homepage

The image slider on the homepage displays the Featured Images from selected Posts.

www.sfnct.org/about_us/

Figure 11: SFNCT - Image Slider

1. Add images to the [Media Library](#).
2. Create new Posts that reference a Feature Image.
<http://wp-admin-guide.com/how-to-admin-wordpress/writing-posts-and-pages/>
<http://wp-admin-guide.com/how-to-admin-wordpress/managing-posts/>
 - a. From the left side panel, select “Posts → Add New” or go to <http://www.sfnct.org/wp-admin/post-new.php>
 - b. Add a Post title. The Post title is displayed when one hovers over the image displayed in the slider.
 - c. Set a Featured Image.

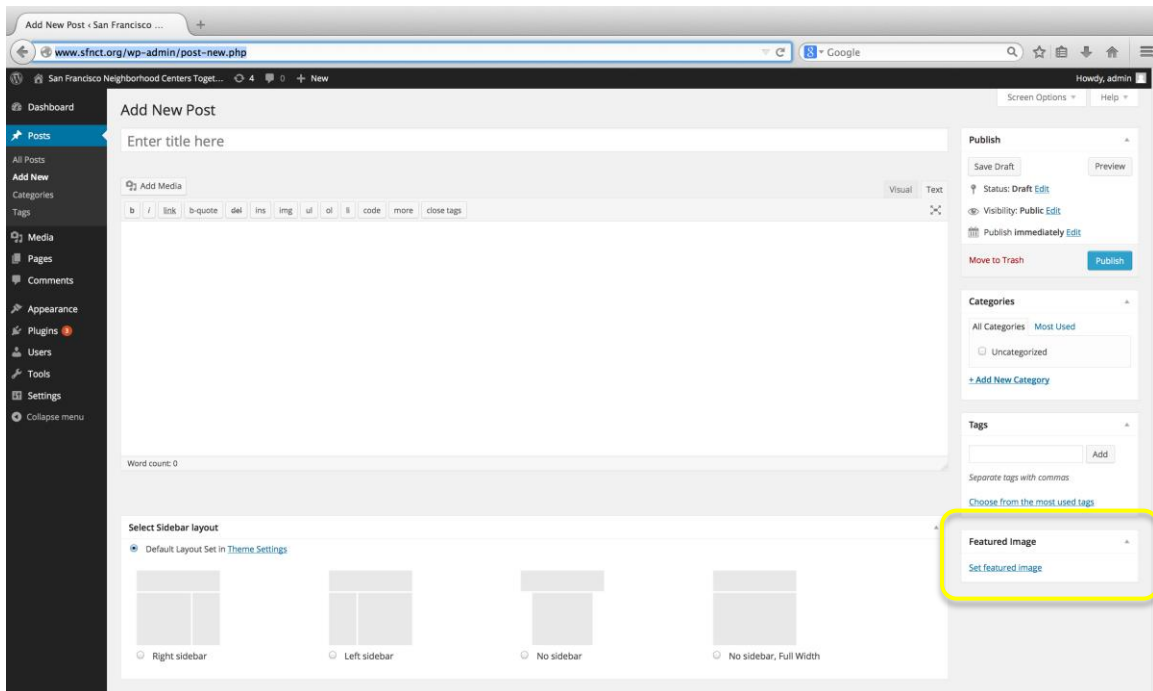

Figure 12: Administration Screen - Posts

3. Reference Post Ids in the Featured Post Slider.
 - a. From the left side panel, select “Appearance → Theme Options (http://www.sfncf.org/wp-admin/themes.php?page=theme_options) → Featured Post Slider → Add Slider Options”.
 - b. Add the number of image slides to display and the referenced Post ID of the Featured Image.

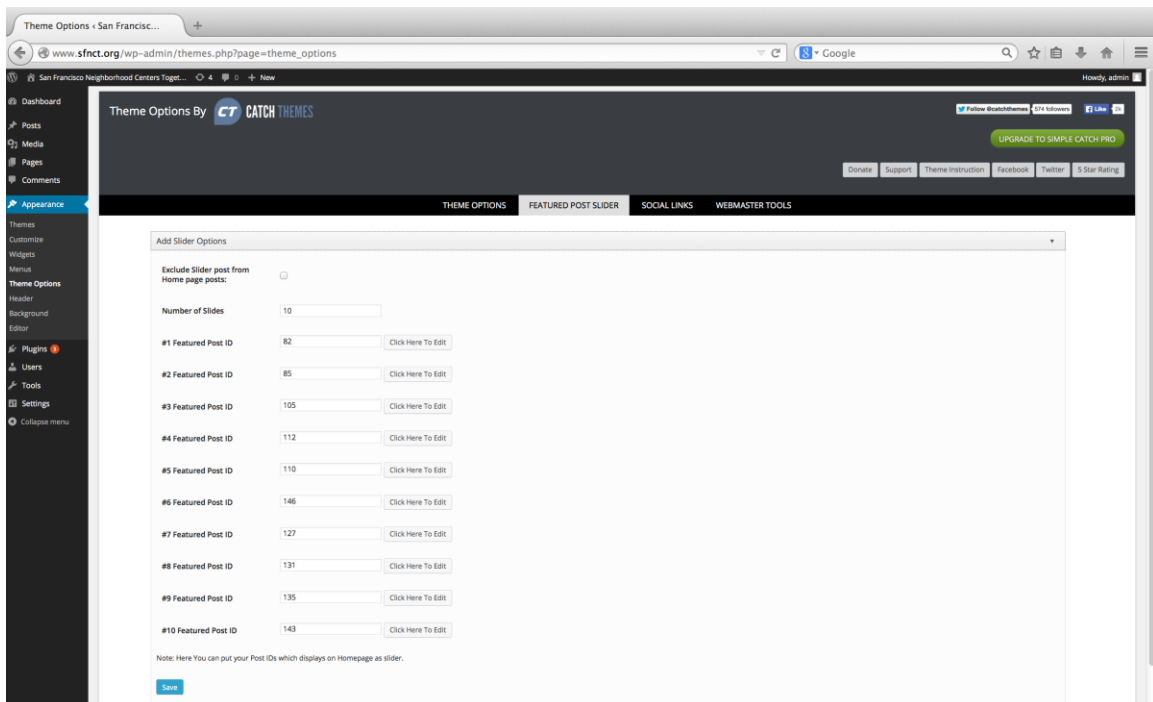

Figure 13: Administration Screen - Add Slider Options

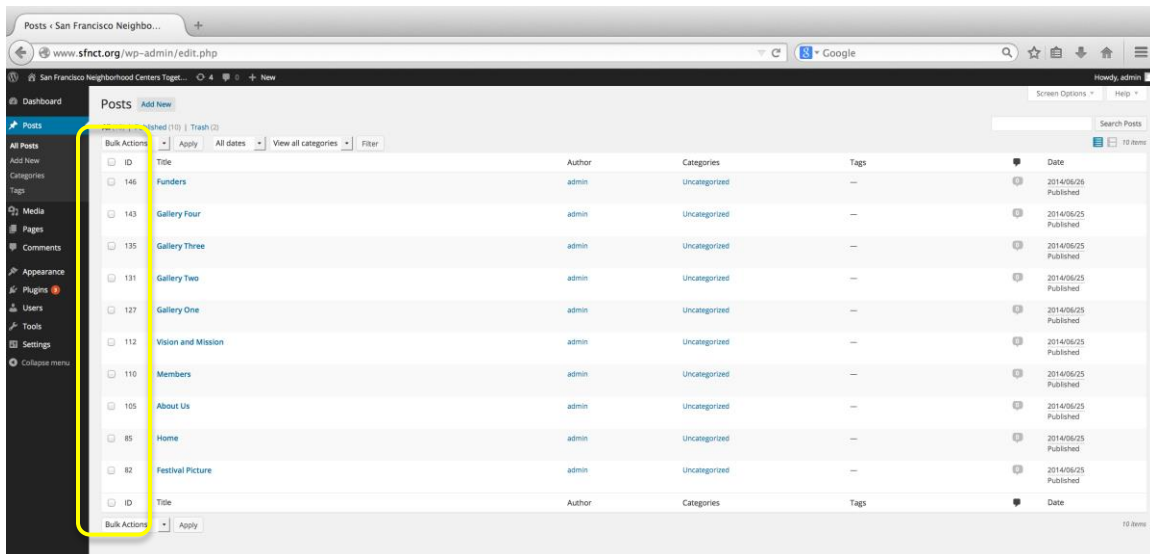

Figure 14: Administration Screen - Post ID

4. The Featured Post Slider creates hyperlinks that reroute back to the referenced Post. That is not the desired intent for the SFNCT website. The Featured Images should link to the referenced Pages. For this action, an update was made to the php file from the Simple Catch theme. For each additional image that is added to the Featured Post Slider that needs a hyperlink created to the referencing page needs to update this php file.
 - a. Open wp-content/themes/simple-catch/functions/simplecatch_functions.php
 - b. Modify the simplecatch_sliders function.
 - c. On roughly line 372, add to the If-Else statement where Post ID equals the Feature Image create a hyperlink to the referenced Page.

```

if ($post->ID==82){
    //home
    $simplecatch_sliders .= '<a href="' . get_bloginfo('url') . '/' .
        title="'.the_title('','',false).'">';
}
else if ($post->ID==85){
    //home
    $simplecatch_sliders .= '<a href="' . get_bloginfo('url') . '/' .
        title="'.the_title('','',false).'">';
}
else if ($post->ID==105){
    //about us
    $simplecatch_sliders .= '<a href="' . get_bloginfo('url') .
        '/about_us/" title="'.the_title('','',false).'">';
}
else if ($post->ID==112){
    //vision and mission
    $simplecatch_sliders .= '<a href="' . get_bloginfo('url') .
        '/vision_mission/" title="'.the_title('','',false).'">';
}
else if ($post->ID==110){
    //members
    $simplecatch_sliders .= '<a href="' . get_bloginfo('url') . '/members/"
        title="'.the_title('','',false).'">';
}
else if ($post->ID==146){
    //funders
    $simplecatch_sliders .= '<a href="' . get_bloginfo('url') . '/funders/"
        title="'.the_title('','',false).'">';
}

```

How Do I Update SFNCT Contact Information

<http://wp-admin-guide.com/how-to-admin-wordpress/using-sidebar-widgets/>

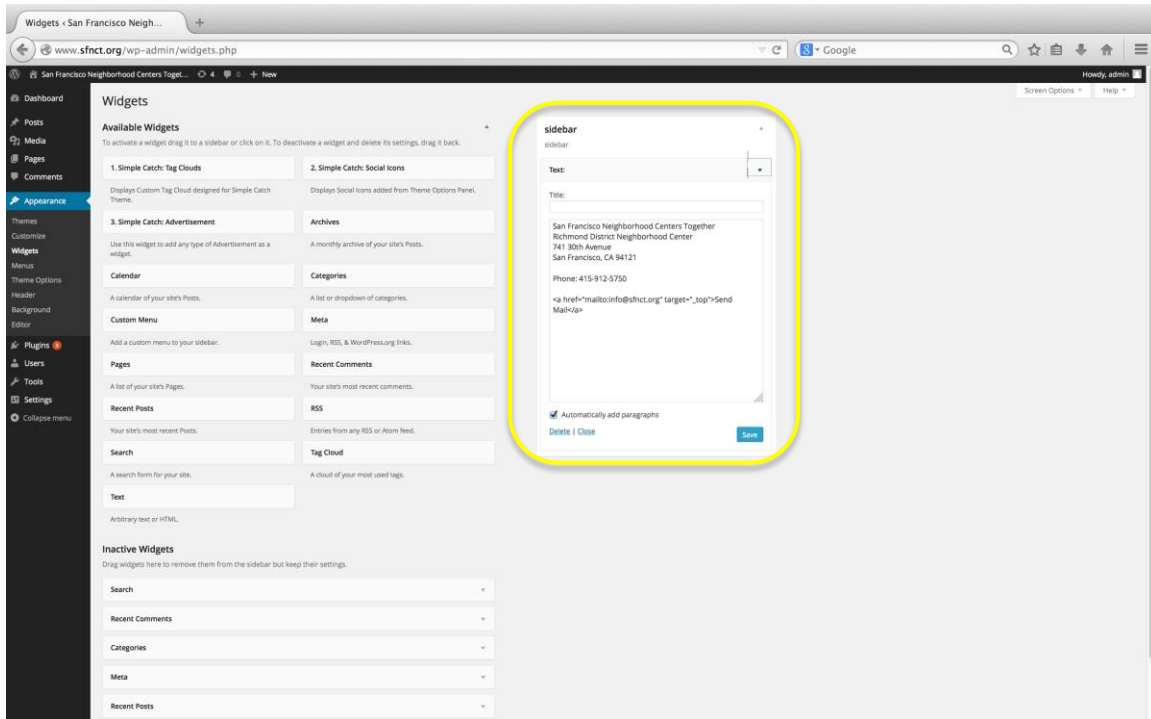

Figure 15: Administration Screen - Widgets

1. [Log on the WordPress Administration for SFNCT.](#)
2. From the Dashboard Screen, select “Appearance → Widgets” or go to <http://www.sfnct.org/wp-admin/widgets.php>
3. Open sidebar, edit the sidebar text, select the Save button.

How Do I Customize Themes

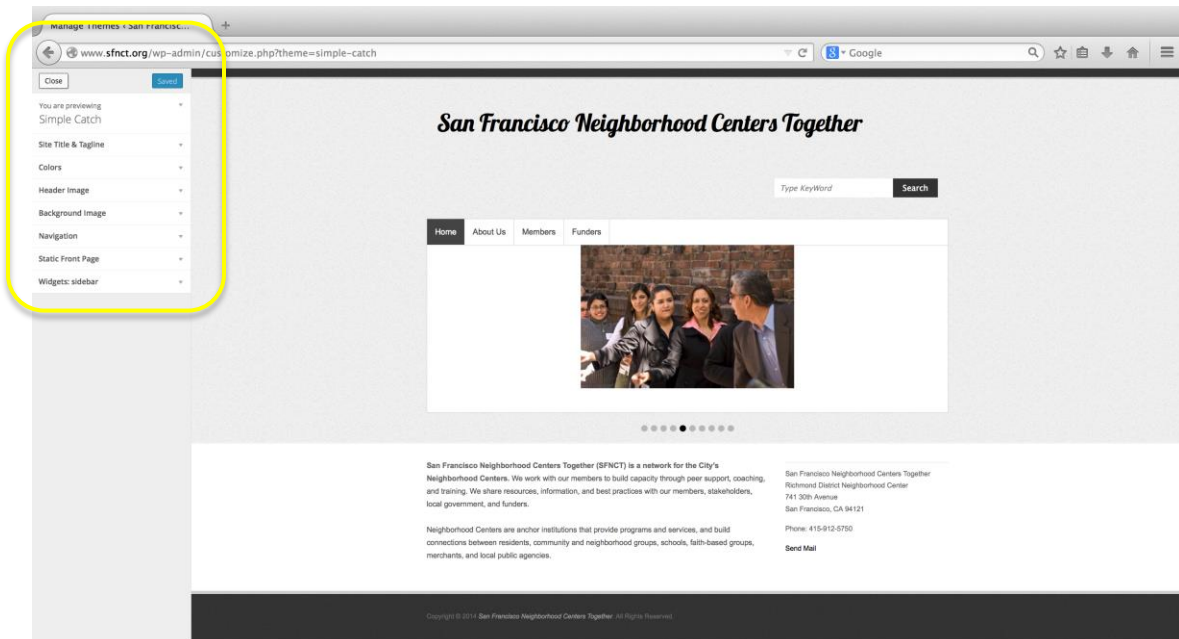

Figure 16: Administration Screen - Customize Theme

1. [Log on the WordPress Administration for SFNCT.](#)
2. From the Dashboard Screen, select “Appearance → Customize” or go to <http://www.sfncf.org/wp-admin/customize.php>
3. Use the left panel corner to customize the current theme. The customization includes items such as color schemes and navigation.

How Do I Change Themes

Figure 17: Administration Screen - Change Theme

4. [Log on the WordPress Administration for SFNCT.](http://www.sfncf.org/wp-admin/themes.php)
5. From the Dashboard Screen, select “Appearance → Themes” or go to <http://www.sfncf.org/wp-admin/themes.php>
6. The Administration Theme Screen displays which theme is active. Select the Active button of another theme to change themes.
